

Long Ho â DevOps Engineer

Ho Chi Minh City | longhn0710@gmail.com | linkedin.com/in/longhn0710 | github.com/devsecopslonghn

Summary

- DevOps engineer with 3+ years building CI/CD, infra automation, and container platforms in banking/e
- Focus on stability, auditability, and security-first practices (HTTPS/HSTS, cert lifecycle, least-privilege)
- Comfortable with public cloud and on-prem K8s/OKD; standardize pipelines and IaC for multi-team del

Core Skills

- CI/CD: Jenkins (PaC/Groovy), GitLab CI, GitHub Actions; quality gates, promotion, rollback.
- Containers/Orchestration: Docker hardening, digest deploys; K8s/OKD (kubeadm), Traefik ingress, TL
- IaC/Config: Terraform; Ansible/Ansible Automation Platform; policy-as-code mindset.
- Release & DB: Git-based SQL versioning (DDL/DML/SP) with audited rollback plans.
- Scripting: Bash, Python automation for packaging, provisioning, reporting.
- Cloud/Networking: AWS (core), hybrid/on-prem networking, Cloudflare + Letâs Encrypt (DNS challeng

Experience

Sacombank â DevOps Engineer (Banking) | 2023â Present

â Designed Jenkins (PaC/Groovy) for multi-env releases (dev/SIT/UAT/stage/prod) with go/no-go gates

â Automated app distribution/tester access via Firebase CLI with CSV mapping and environment segre

â Aggregated test results across .NET/Java/Python for reporting and quality gates.

â Managed SQL change/versioning in Git with DDL/DML/SP and rollback aligned to audit.

â Enforced Docker image immutability and digest-based deployments for traceability.

â Built/operated on-prem K8s/OKD (kubeadm, Vagrant, libvirt); Traefik ingress, Cloudflare + Letâs En

â Applied security-first practices: HTTPS/HSTS awareness, cert lifecycle, least-privilege access.

DXC Technology â DevOps Engineer | 2021â 2023

â Built Jenkins/GitLab CI with automated tests, security scanning, and promotion gates for microservice

â Containerized services with Docker; introduced Terraform/Ansible modules for consistent provisionin

â Improved release governance with versioning, artifact integrity, and environment parity to reduce roll

Short Version

DevOps engineer experienced in Jenkins CI/CD, SQL version control, Docker, and private Kubernetes p
